

New Product Bulletin #26

Introducing the ITPFOD Power Feed Offset Drillmotor

Features

- Adjustable feed control and adjustable guide rods for varying cutter lengths.
- Adjustable depth control with automatic retract.
- Offset drill attachment is stabilized from deflection with added support yoke.
- Power feed drilling means less effort for operator, reduces repetitive stress injuries, better hole quality, and longer cutter life.
- Up to 1/4" capacity, based on drill attachment thickness. Other offset lengths available.
- L-type attachment has 180 degrees of rotation—from 3:00 to 9:00 position.
- Also has rapid-advance capability.
