

## New Product Bulletin #27

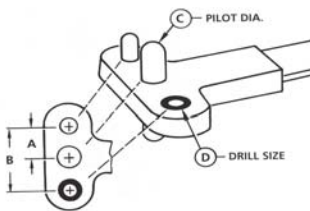

### Introducing FT Series Interchangeable Spacing Nutplate Jigs

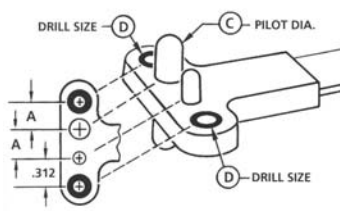

#### Features & Benefits

- Interchangeable nutplate jig heads for replacement when rivet holes are worn or nutplate spacing or type changes. All jig heads are part number identified.
- Miniature spacings and special pilot diameters available.
- Robust, yet lightweight handle accepts all jig head styles and is extremely durable and comfortable in the hand.
- Great for kitting. You can kit or we can kit a variety of sizes for you!
- Only 7" long and .35 lbs each.
- We can cross over ATI part numbers!
