 <p>IT2MHRK shown at right.</p>	

Tool Features

- Power ratchet that *does it all* for the airframe mechanic - installs and removes clearance-fit hi-loks®, accepts insert bits that remove and install screws, torq-sets, tri-wings; multi-drive attachment for hi-torque drivers & general maintenance sockets. Three tools in one!
- Adjustable feathering throttle control to vary rpm from 60 to 300 rpm.
- No-mar protection on ratchet head.
- 1/4" & 3/8" combination multi-drive with hex wrench hole to allow access for our hi-strength hex keys. Use your own sockets or our low-profile S100 series sockets.
- **Only 6" long and weighs an astonishing 1.15 lbs. light!**
- Composite housing for quiet operation, operator comfort, and thermal protection.
